

Dear Parents,

4th April 2017

Year 1 and Year 2 Egg Hatching Experience

KS1 are excited about welcoming some new arrivals during the Summer Term. We will be joined by a clutch of eggs that will hatch into adorable chicks. Both Year 1 and Year 2 pupils will be studying the changes that animals go through as well as observing how they grow.

This experience will enhance your child's education by giving them the first-hand experience of watching how these creatures develop over time and enable them to gain a better understanding of how to look after living things. It has links across a range of topics we will be studying and hope you will encourage your child to get involved in the experience.

In order to cover the cost of the experience, please enclose **£7.00** towards the cost of the experience.

Yours sincerely

KS1 team
