

## School & College Interview Preparation

Please find some potential school or college interview questions to help you to prepare.

Please let the school know once your interview has been confirmed so you can arrange to finish school early if required!

The interview will be more of an informal chat, so nothing to get too worried about. You'll be fine!

They are likely to ask the following questions:

- 1) *Why have you applied for these courses/subjects?*
- 2) *-What do you know about the course/subjects you'll be studying?*
- 3) *Why our 6<sup>th</sup> form or college?*
- 4) *What are your careers aspirations and career ideas?*
- 5) *What are your hobbies and interests?*
- 6) *Tell me a bit about you and school - subjects you enjoy, excel in etc. Work ethic, target grades, punctuality, behaviour and attendance (the school can provide you with this)*

If you have applied for college, you will be required to complete an Initial assessment. This is 2 x 30 minutes. One in literacy and one in numeracy and is multiple choice. Please take your time answering the questions – questions may include pictures of a 10p coin, 20p coin and a 50p coin and they may ask which one is 50p etc. Some questions will be more challenging though!

We recommend a smart -casual dress code. Some attend in their school uniform! Just remember to come across as motivated and enthusiastic, which I know you will!

**Good luck!**
